

Vibracoustic GmbH & Co. KG

Operative Efficiency

Contact

Vibracoustic: Reinhard Schütz, CEO

ZLU: Dr. Michael Debuschewitz, CEO and Managing Director

Vibracoustic increases performance and profitability throughout Europe with Best-in-Class processes

Assignment

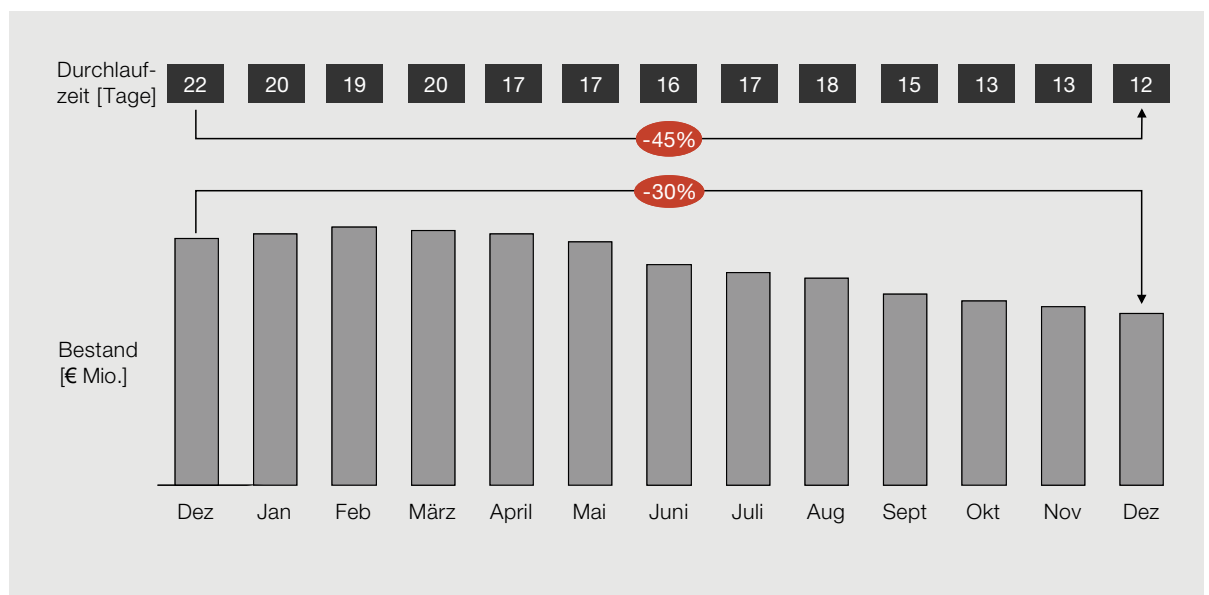

- Increase of profitability and reduction of working capital throughout Europe by increasing the process efficiency (16 sites/business units, annual turnover approx. € 450 million, approx. 2,000 employees)

Success Factors

- Introduction of the Vibracoustic production system
- Consistent, site-specific measure controlling and monitoring
- KPI-based project management (Management by Objectives)
- Project organisation under the dual leadership of Vibracoustic personnel and ZLU consultants

Delivered Results

- Trained personnel and the implementation of new processes (guidelines for material handling, manual for phase-out management, Bensberg-Tool)
- Reduction of inventory levels by approx. 30%
- Reduction of lead time by about 45%

Vibracoustic reduces its lead time by 45% and as a result also reduces its inventory levels significantly
